

SCALES
FOR MANUAL
DOSING

KDF

OUR SCALES

KDF

Always quick and precise dosing.

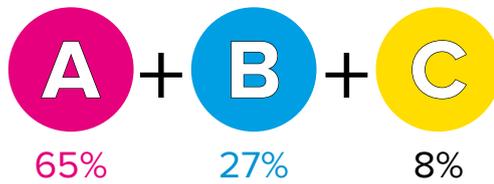

KDF scales allow you to dose easily and in real time any product in any quantity, thus making mixture creation easier, more flexible and independent.

- ✓ EASY TO USE
- ✓ TOUCH-SCREEN
- ✓ PERFECT DOSING
- ✓ NO WASTE
- ✓ VERSATILE
- ✓ CUSTOMISABLE FORMULARY
- ✓ AUTOMATIC RECALCULATION WITH FREE QUANTITIES

- 500 STORABLE FORMULAS
- UP TO 20 BASES TO COMPOSE THE FORMULA

= 100%
perfect dosages,
no mistake.

THE SIMPLICITY OF A TOUCH-SCREEN MONITOR

KDF

BAR GRAPH

It indicates the dosing progress.

WEIGHING INDICATOR

It indicates the quantity of the ingredient to dose.

LIGHT SIGNAL

Useful help to check dosing.

START

To start dosing.

Starting point to start pouring.

The required quantity has been reached.

If the programmed dosing is exceeded by mistake, the balance activates the adjustment wizard.

VERSION FOR HIGH MICRODOSING ACCURACY

from 0.001 g up to 6 kg

BENCH VERSIONS

from 1 g up to 30 kg

Size:
230x330 mm 400x400 mm
330x330 mm 500x500 mm

MOBILE VERSION ON CARRIAGE

from 1 g up to 30 kg

Size:
400x400 mm, h 250 mm or 650 mm
400x500 mm, h 250 mm or 650 mm

**WIDE RANGE OF USES
WITH A CUSTOMISABLE
DOSING PROGRAM**

FOOD SECTOR

Catering, pastry-shops,
ice-cream parlors, bakeries etc.

ARTISANS

Bodyworks, coatings etc.

CHEMICALS SECTOR

Pharmaceutics, paint
factories, laboratories.

**CONSTRUCTION
INDUSTRY**

Paintings, renovations etc.

MANY BENEFITS

IMPROVING AND QUALIFYING THE MANUFACTURING PROCESS

Ease of use is the main strenght:

1 SELECT THE FORMULA

2 TYPE THE QUANTITY

3 PRESS START TO BEGIN

Impossible to make mistakes

THE CODE VERIFIES THAT THE PRODUCT IS CORRECT

KDF scales are equipped with an important function to **help the user decide** the correct product to dose: the barcode reader allows you to confirm each product and read its code, so that, if the wrong product is chosen, an error is displayed, thus avoiding damaging the current mixture.

Reduce waste

WITH THE CORRECTION WIZARD FUNCTION

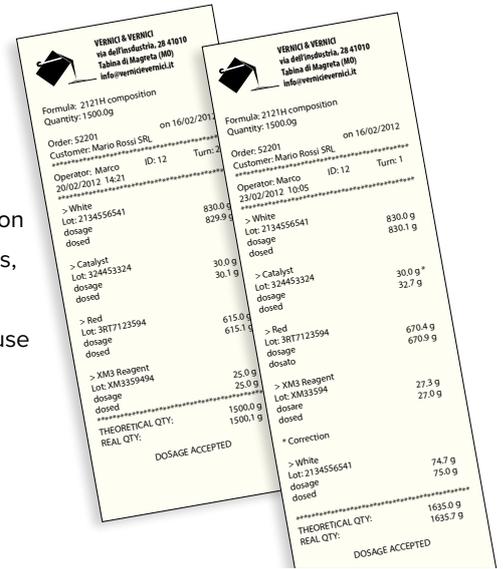

If the right dosing of one component is exceeded, the scale automatically activates a wizard to **restore the right percentage** of the remaining components. This function is essential to reduce as much as possible the inevitable waste of product that might occur in manual dosing.

Safe from complaints KDF CERTIFIES THE MANUFACTURING PROCESS

With the ticket issue at the end of dosing, it is possible to store the dosed quantity of each component and enrich it with many identification data, such as product name, lot and user number, theoretical quantities, mistakes and consequential corrections made.

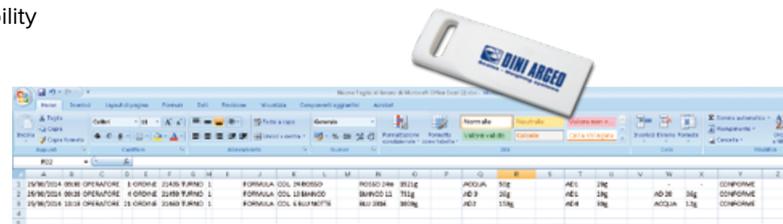

All these data enhance considerably the manufacturing process because they can **prove at any time** how precise that mixture creation was.

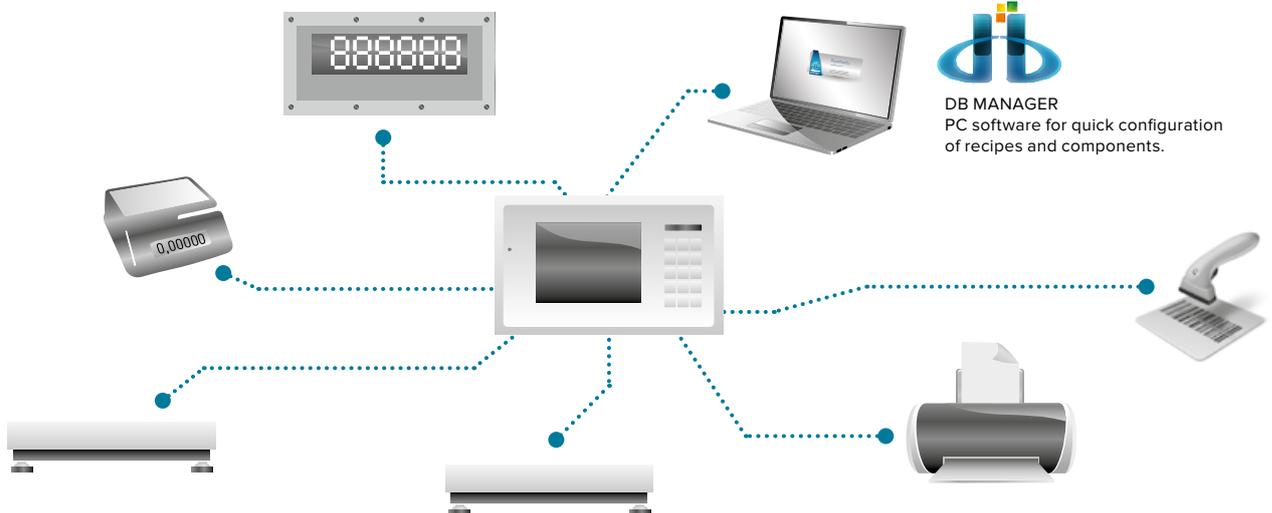

Full traceability USB PEN DRIVE TO STORE WEIGHTS

Weighing storage is important to ensure full traceability of all the operations carried out.

All data are available in Excel format, **more than 5,000,000 storable weights.**

Interfacing WITH MANY EXTERNAL DEVICES (Display, PC via network or wireless, scales etc.)
