

## COMPANY PROFILE

# WHO WE ARE

Dini Argeo is an Italian company specializing in the design and production of scales and weighing systems, which stand out for quality, reliability and versatility of use, gaining increasing success on markets all over the world.

The wide range of interfaces with customizable communication protocols makes Dini Argeo products easy to integrate in automation and industrial process, for the creation of OEM systems.

## OUR SOLUTIONS

- Reading, collecting, processing and transmission of weighing data.
- Simple, sequential, simultaneous, single or multi-components dosing, while loading and unloading, continuous dosing on belts or loss-in-weight dosing.
- ATEX weighing for hazardous areas.
- Piece counting and labeling.
- Production lines control, statistical controls of pre-packaged products.
- Logistics weighing (pallet truck scales, pallet-weighing, weighing forks for forklifts, crane scales).
- Vehicle weighing (weighbridges, static and dynamic wheel weighing systems).
- Price computing scales for retail applications.
- Laboratory balances.

# FOR OVER 100 YEARS IN THE WORLD OF WEIGHING

1846

## Birth of Dini Argeo

Dini Antonio founds the company in the province of Modena, in the heart of the Motor Valley. The company began with the production of weighing systems for the agricultural sector.

## At the turn of the century

Dini Argeo is recognized as metric manufacturer in the Metric Manufacturers Register.

1906

1980

## Going Digital

In the 1980s, the arrival of electronics and their application in weighing systems compelled Dini Argeo to start creating digital weighing systems with hardware and software solutions to satisfy customers' specific demands for diverse industrial and commercial sectors.

## A company of Rice Lake Weighing System Group

Dini Argeo joins Rice Lake Weighing Systems group, an international leader in the field of weighing, with the aim of increasing the range of products and services on the national and international territory.

2016

2020

## 360° weighing

Dini Argeo designs and manufactures weighing systems and components with time-tested quality and efficient customer service worldwide. Dini Argeo is a global leader in mobile, industrial and retail weighing systems.

# QUALITY AND CERTIFICATIONS

Dini Argeo, a company which has been producing scales and weighing systems since 1846, has been registered since 02/04/1906 at the Registry of Metric Manufacturers provided by the Royal Decree nr. 226 of 12/06/1902.

Dini Argeo has obtained the Quality Management System Certification according to the UNI EN ISO 9001:2015 norm.

Dini Argeo is an ATEX notified company according to the 2014/34/EU directive (attachment IV). The Dini Argeo production process is therefore certified for the production and sales of equipment marked Ex, for the use in potentially explosive environments.

Dini Argeo has obtained the ATEX EX NEPSI Certification for China, for its weight indicators destined for the use in potentially explosive environments, 2GD areas.

Dini Argeo is a certified company for the production and supply of IECEx certified equipment marked Ex, intended for use in potentially explosive atmospheres that require the IECEx certification scheme.

Dini Argeo produces instruments in compliance with the requirements laid down by the recommendations of the International Organization of Legal Metrology (OIML):

- Load cells approved to OIML R60.
- Non-automatic weighing instruments approved to OIML R76.
- OIML R134 approved dynamic weighers for vehicle transiting at a low speed.
- OIML R51 (MID) approved "start/stop" automatic catchweigher on belt conveyors.
- Gravimetric filling instruments approved to OIML R61 (MID).

Dini Argeo manufactures nonautomatic weighing instruments in conformity with the 2014/31/EU Directive. The DG mark states the instrument is subject to the EC verification by the manufacturer according to the Certificate of EC approval of the Production Quality Assurance System.

Dini Argeo is CIBE Service Partner, ISO/IEC 17025:2017 accredited metrological laboratory for calibration and periodic verification of masses and scales (NAWI and AWI) and adheres to CIBE refresher programs in the field of legal and scientific metrology.

Dini Argeo produces approved or approvable instruments for a legal-for-trade use following the European regulation EN 45501 and the directive 2014/31/EU.

The metrological marking indicates that the instrument is covered by a type approval certificate, released by an european notified body, that validates the idoneity for a legal use. This approval is fundamental for all the instrument legal-for-trade uses, in relationship with third parties.

XX are the last two digits of the year in which the metrological marking has been applied.  
yy shows the identifying number of the notified body that performs in the production control.

Dini Argeo is a member of the UKWF (United Kingdom Weighing Federation), the national trade association for manufacturers, system integrators, distributors, repairers, installers and service organisations involved in the United Kingdom weighing industry.

Dini Argeo is a member of the CWIA (China Weighing Instrument Association), the national trade association that since 1983 includes manufacturers, distributors, researchers, educators, government officials involved in the China weighing industry.

Dini Argeo manufactures instruments conforming to GOST-R standards.

Dini Argeo is a member of the WIAA (Weighing Industry Association of Australia), the national body representing companies and businesses engaged in the manufacture, sales and service of laboratory, industrial and retail weighing equipment.

# PROUD TO BELONG TO

Since November 2016 Dini Argeo has been part of the Rice Lake Weighing Systems group, a family business with the highest standards in terms of quality and customer service.

The acquisition of Dini Argeo improves Rice Lake's service and support offering in Europe, Africa, the Middle East, Asia and other strategic locations around the world. Rice Lake Weighing Systems is an ISO 9001:2015 accredited company based in Rice Lake, Wisconsin, USA.

Founded in 1946, Rice Lake has been committed to the highest quality standards for three generations, while expanding its manufacturing facilities and offices throughout the United States and around the world, including Mexico, the Netherlands and India.

*Dini Argeo has a long-standing reputation of quality in product and service. These ideals reflect our own and the addition of Dini Argeo to the Rice Lake family will increase our ability to serve the market with advanced weighing solutions.*
