READY MEALS

MCI MYRIAS READY MEALS MODULE INCREASES PRODUCTIVITY, IMPROVES ACCURACY AND REDUCES OVERFILL.

The Ready Meals module monitors on-scale filling of ingredients to the product BOM, ensuring best compensation for filling errors such as user bias and product variation.

Myrias connects standard scales, operator terminals, label printers, barcode scanners, PC stations and data networks integrating equipment in one enterprise software.

- *Operate in both takeaway and positive checkweighing mode*
- *Auto-detect product removal*
- *Select ingredients from scale, PC or handheld device*
- *Automatic download of user configurable limits from PC database*
